

## Dynex Firmware update: Download/Install instructions for Connected Blu-ray DVD players

System requirements: a computer with an open USB port, USB flash drive (stick), broadband internet access and operating software of Windows XP, Windows Vista, Windows 7 or Mac OS 10.3 or newer. This option is not recommended with dial-up or DSL service with a bit rate lower than 256kbps. If the instructions provided below do not help, call Dynex Customer Support at (800) 305-2204 for assistance.

### First: Download the update file

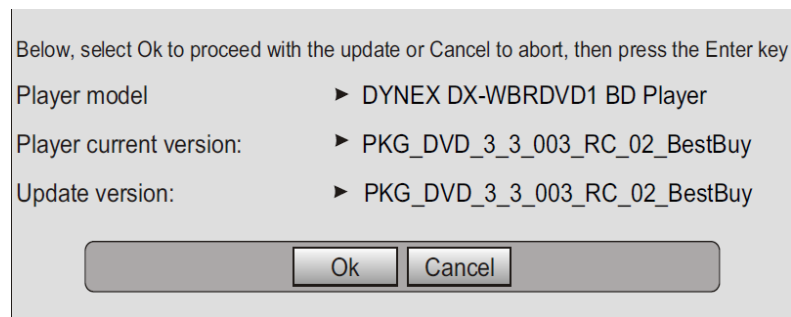

1. Insert USB flash drive into the open USB port on your computer.
2. Download firmware; if a pop-up window opens telling you to open, save or cancel, click **Save** and save the file to your USB flash drive.

Note: File size is approximately 50 MB. Estimated download time is 4-5 minutes (with a 1.5 Mbps broadband connection).

3. After saving the firmware to your USB flash drive; remove the USB flash drive from your computer.

### Second: Upgrading the Player Software with a USB Flash Drive (Stick)

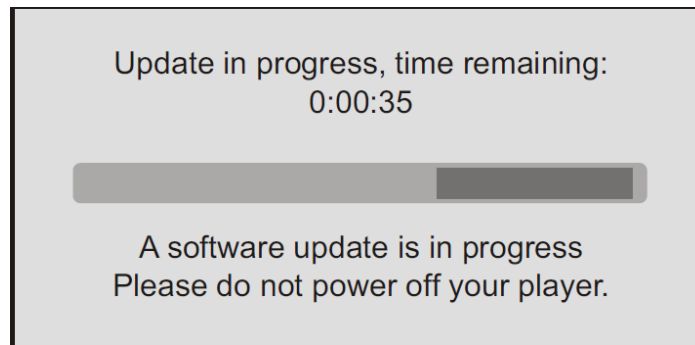

1. Eject any disks that may be in the player, and remove any USB flash drive already inserted in the player.
2. Turn the player off; insert the USB flash drive containing the firmware that was downloaded into the player's USB port.
3. Turn the player on
4. After one or two minutes, a screen **similar** (Version and/or model will be different) to the one below will appear:

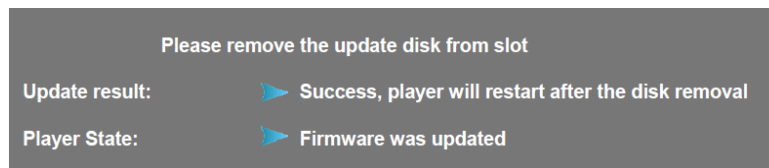

5. Using your remote control make sure the "Ok" button is highlighted and press enter on the remote. The software update will then begin

Note: **DO NOT TURN THE POWER OFF DURING THE UPDATE**

Note: During the software update, a timer will count down the approximate number of minutes and seconds remaining for the update.

6. Once the update has completed, a screen similar to the one shown below will appear:

7. Remove the USB flash drive (stick) from the player.
8. The player will restart after removing the USB flash drive (stick).

Note: It is recommended that you erase/delete the update file from the USB flash drive using your computer prior to using the USB flash drive again.

Note: If you experience any issues while performing this upgrade, call Dynex Customer Support at (800) 305-2204 for assistance.
